

DISCOVER HOW WE ENSURE **CONFIDENCE** WITH THE SAFETY AND QUALITY OF YOUR FOOD

With customer concerns ever increasing and legislation always changing, it is critical for food manufacturers to perform analytical nutritional analysis on products and to display this nutritional information on packaging.

Concept Life Sciences offer a comprehensive range of nutritional analysis services delivered to provide you with assurance that your analytical programme will be managed with a high degree of precision.

INSTRUMENTATION

Our nutritional analysis laboratories are equipped with state-of-the-art analytical instrumentation, enabling fast, efficient and accurate generation of nutritional labelling data.

TECHNICAL EXPERTISE

Our nutritional experts who provide a trusted and highly respected service and our highly qualified staff can ensure the accuracy of the analyses conducted.

QUALITY CONTROL

All testing is carried out in accordance with the internationally recognised ISO/IEC 17025:2005 Standard with widespread accreditation of the major tests.

DELIVERING YOUR SAMPLES ON TIME

Our staff understand the needs of the industry and the importance of working to agreed timescales. Our nutritional laboratory invest in state-of-the-art instrumentation, technical expertise and quality control in order to meet your needs and ensure on time delivery.
